Bill of Rights Day

It was on this day in 1791 that 10 of the 12 proposed amendments to the Constitution were approved and added to the United States Constitution. These key additions are known as the Bill of Rights, and in honor of the addition of these amendments, which protect our rights as Americans, we celebrate Bill of Rights Day today.

These amendments include the freedom of religion, speech, and press, the right to bear arms, the protection from illegal search and seizure, and more! Do you know which of the original amendments didn't pass?

The proposed amendments concerned the number of representatives in Congress and their compensation. Had they passed, we'd have over 6,000 congressmen! Happy Bill of Rights Day!
