

It takes a special person to be a Nursing Assistant. You're hard working, dedicated, and go above and beyond to comfort others – it's a job that requires you to give and give of yourself. And while I always appreciate you for everything you put into your calling and in to taking care of the humans that rely on you, this year, you deserve an even bigger round of applause. Thank you for continuing to shine so bright during a difficult and scary time.

You're Essential.

THANK YOU
