National World Tuna Day

World Tuna Day highlights the importance of maintaining sustainable fishing practices. While many people are familiar with the glasses-wearing cartoon tuna found on a can, did you know there are more than two dozen varieties of tuna, and some of them grow to an impressive size?

Blackfin Tuna can be 3.5 feet long. Albacore tuna can be as long as 4.5 feet long, and Atlantic Bluefin tuna can be up to about 15 feet! But don't let their size fool you. Tuna are swift swimmers and can reach speeds between 44 and 62 miles per hour. Tuna are masters of disguise, able to camouflage their skin to blend in with their ocean surroundings. More than 96 countries around the world participate in the conservation and management of tuna to help stop and prevent overfishing.
