National Rescue Dog Day

Celebrate the amazing bond between humans and their canine friends on National Rescue Dog Day, May 20th! This special day was created to recognize the incredible impact rescue dogs have in our lives. Rescuing a dog brings with it so much joy and love, plus it helps reduce overcrowding in shelters and rescues.

Whether it's an older pup or a puppy who needs a second chance, rescues allow these animals to live in safety and comfort. Not only do they provide people with unconditional love and companionship, but rescue dogs also help bring about healing for those who have experienced trauma or loss. Rescue dogs also show us that all life is valuable no matter what their past has been like.

Today in History

In 1983, American heavyweight boxer Larry Holmes beat countryman Tim Witherspoon to hold onto his 5th consecutive WBC title. The bout was won by a split decision and took place at the Dunes Hotel and Casino in Las Vegas. He had 20 successful title defenses.

DID YOU KNOW? **Widows Walk the Roofline?**

In many poems and stories, the widow's walk provided an elevated vantage point for seamen's wives to survey the harbor for their husbands' arrival. Sadly, many never returned, leaving their wives to become mourning widows. Some historians, however, believe the walks were designed more practically, for firefighting. Chimney fires were common in the 1800s, families would store buckets of sand to pour down the chimney, and the widow's walk provided access to the chimney opening.

How To Play:

Each 9x9 box is comprised of 9 smaller 3x3 boxes. Each of these smaller boxes must be filled in with numbers from 1-9. Each row and column of the larger 9x9 box should not have any numbers repeated.

	5				9		4	
	8	7		2			6	
					6	8	2	
6			9	8	5			
1						3		7
	2	8		1				9
5			6			4	7	
	6	9	5			1		2
			1	7	2	5		

4			9		6			
9						4	3	
			7	8		9		1
				9	5			7
7		8	2					
		9			8			4
	5	7					4	
			6	1	9	7		
	9					3	8	

Helpful Tip:

If you get stuck, try asking yourself "Where can I place number X in this row or column?" Scan to see if the number is already in that row, column, or box.
