National Sunscreen Day

There's nothing like a sunny day, but it's important you enjoy it in a sun-safe way! Protect your skin, and your health, on National Sunscreen Day on May 27th! Did you know that sun protection is no longer limited to just sunscreen? Sun-smart, SPF protective clothing like hats, shirts, pants, and swimwear are also important ways to keep your skin safe from UVA/UVB rays when you're out in the sun.

Protecting your skin from the sun has been scientifically proven to reduce certain types of cancer and other skin conditions and issues. And don't forget to protect your eyes with UVA/UVB-blocking eyewear! Just remember to always use a sunscreen of SPF 30 or higher and apply it regularly!
