National Tell a Story Day

Today encourages people of all ages to share their tales. Storytelling has been a tradition for centuries, passing down knowledge from generation to generation. It is a great way to share family traditions, histories, and memorable moments while also being entertaining and educational. Whether you are recounting childhood memories or real-life experiences, storytelling is a great way to connect with others and foster creativity.

National Tell a Story Day encourages everyone to participate, from the youngest to the oldest. Get together with family and friends to share stories. You can tell a story from a book or create one from your imagination. Everyone has a story to tell, so go ahead and share yours!

DID YOU KNOW?

Goggles Through Time

The first known goggles used for swimming and diving were invented in Persia in the 14th century. Originally made from polished tortoise shells (hence the transparency) and used by pearl divers, they remained popular for two centuries in the Middle East. There is evidence to suggest that they were imported into Europe, but they did not gain popularity there.
