Be a Kid Again Day

Have you ever thought about why do kids seem to be happier than adults? They often don't let what others think affect them. They laugh a lot. They live in the moment. They have wild imaginations! And they always expect the best from everyone. On Be a Kid Again Day, let your inner child loose and remember what it was like when you didn't take things so seriously.

Is feeling like a kid important? Psychologists suggest that a youthful and positive attitude is the key to eternal happiness and reducing anxiety and depression. But is it possible to feel like a kid again? The answer is a resounding yes! And it's easy. All you have to do is hold on to a youthful, optimistic attitude and be here in the present.

Today in History

In 1889, Charles Henry Dow published the first issue of "The Wall Street Journal." As of 2023, it was the largest newspaper in the United States by print circulation, with 609,650 print subscribers. Digital subscribers total 3.17 million, the second-most in the nation after the New York Times.

DID YOU KNOW?

Sloths Use Touch

Sloths primarily navigate through touch due to their poor hearing and eyesight. They possess an exceptional spatial memory and a strong sense of smell that aids in finding food. Their vision is particularly limited; sloths experience monochromacy, lacking cone cells in their eyes, making them colorblind and nearly blind in dim light, as well as completely blind in bright conditions. Three-toed sloths can't see beyond 5 feet.
