ANSWERS ON PAGE 9

# THE PRICE IS RIGHT

Guess the price for each vehicle at the time of its release

## 1924 CHEVROLET \$ \_\_\_\_\_

Back in the 1920's following Ford's automation of the car industry, Chevrolet was the biggest and most successful competitor, they were sold at a higher base price but many additional extras that were required were built into the price making them competitive.

## 1923 MAXWELL CLUB SEDAN \$ \_\_\_\_\_

Includes many features found in autos at twice the price including windscreen cleaner and visor, disc wheels and non skid cord tires, rear vision mirror, heaters and rear passengers foot rail.

## AUBURN 1931 CONVERTIBLE PHAETON SEDAN \$ \_\_\_\_\_

127" wheelbase | 98HP straight 8  
5 passenger convertible car completely closed or completely open or top down and windows up non rattling windows and doors adjustable center pillars.

## FORD 1934 V8 \$ \_\_\_\_\_

The Car of the modern age, with carburetion, clear vision ventilation, a newly designed chromium plated grill, increased springs and swivel type sun visors

**ANSWERS ON PAGE 9**

**1949 HUDSON COUNTRY CLUB SEDAN** \$ \_\_\_\_\_

Ride the most beautiful most roomy most roadworthy most "all round performance car in America."

**1949 PLYMOUTH** \$ \_\_\_\_\_

Full size woody wagon. Seats 8 passengers and has removable seats

**1955 BUICK** \$ \_\_\_\_\_

The buick special boasts pure thrill backed by highest V8 horsepower in Buick History

**1957 CADILLAC CONVERTIBLE** \$ \_\_\_\_\_

Air conditioning, power steering, and the chrome to go with it. 325 Horsepower engine!

**1962 FORD GALAXIE 500 XL  
SKYLINER** \$ \_\_\_\_\_

A change in how Ford marketed cars started with the Galaxie and amongst other things the large round tail lights which appeared on later models of Falcon and Fairlane.

**1964 CHEVROLET IMPALA**  
\$ \_\_\_\_\_

It became the most popular car in America in the 60's fitted with V8 engines and a wide range of options including Power Steering, Air Conditioning, and White Wall Tires. Nobody cared that gas mileage was 12 to 15 MPG — gas was still cheap in those days!

**1973 FORD THUNDERBIRD**  
\$ \_\_\_\_\_

One of Ford's biggest passenger cars to date — and it sold like no other 'Bird before it!

**1970 PLYMOUTH FURY SEDAN**  
\$ \_\_\_\_\_

Produced from 1955 to 1989. It went from a full size to a mid size back to a full size then to a Gran Fury. Thus the downfall of Plymouth. The last one to roll off the assembly line was in 2001.

**'71 Chevelle. How do you change America's most popular mid-size car?**

**ANSWERS ON PAGE 9**

# RIDDLES ON WHEELS

What has 4 wheels and flies?

...a garbage truck

You can find roads without cars,  
And roam through forests without trees,  
Cities exist without houses?  
Whatever can I be?

...a map

I'm always in charge, I'm never in debt. I'm known as  
the first amongst all my kind. I'm found within cars,  
But never in buses. I'm not used in Mexico, I'm used in  
Palestine. What am I?

...the letter 'a'

There was a man going to Alabama. He had seven  
wives. Each wife had three cars. Each car was black,  
blue and green. Each green car had leather seats. How  
many people are going to Alabama?

...only the man

# WHAT CAR IS THAT?

Write the letter of each car next to its corresponding name. Answers on page 9.

# DRAW A CLASSIC CAR

Follow the steps below to draw your very own old-timey car. There is a blank sheet on the next page for you to draw your car, but feel free to use additional paper to keep practicing. Hint: a ruler might be helpful keeping your lines straight.

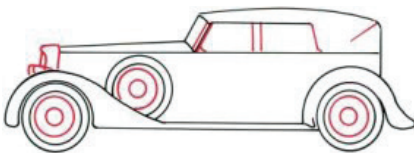

**Step 1:** For the main part of the body, draw a large rectangle that is not quite finished. On top of its right half, form a rectangle with a slanted left end to form the driver's-side windows. Above it, add a long thin rectangle that is slanted for the roof.

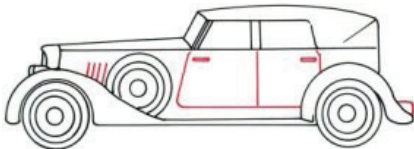

Use a small slanted box to form the windshield. Place a straight line from the left end of the windshield to the front of the car in order to form the triangular front hood. Sketch two circles for the wheels. Put an incomplete circle inside the large rectangle for the spare tire.

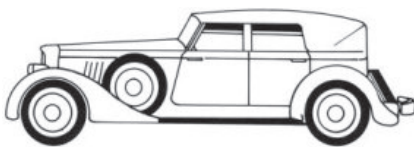

**Step 2:** Add a curved line to the roof of the car. To form the tires, draw a circle inside the front and rear wheels and an unfinished circle inside the spare tire. Add curved lines around the wheels and along the bottom of the car to form the running board and fenders.

**Step 3:** Add hubcaps to each of the three tires by drawing a small circle within a larger circle. Use straight and curved lines to form the front grille and the roof support columns as shown here.

**Step 4:** Place four short upright lines in front of the spare tire. Use a few straight and curved lines to form the doors. Draw tiny thin rectangles for the door handles. Add an upside-down L-shaped figure for the rear bumper.

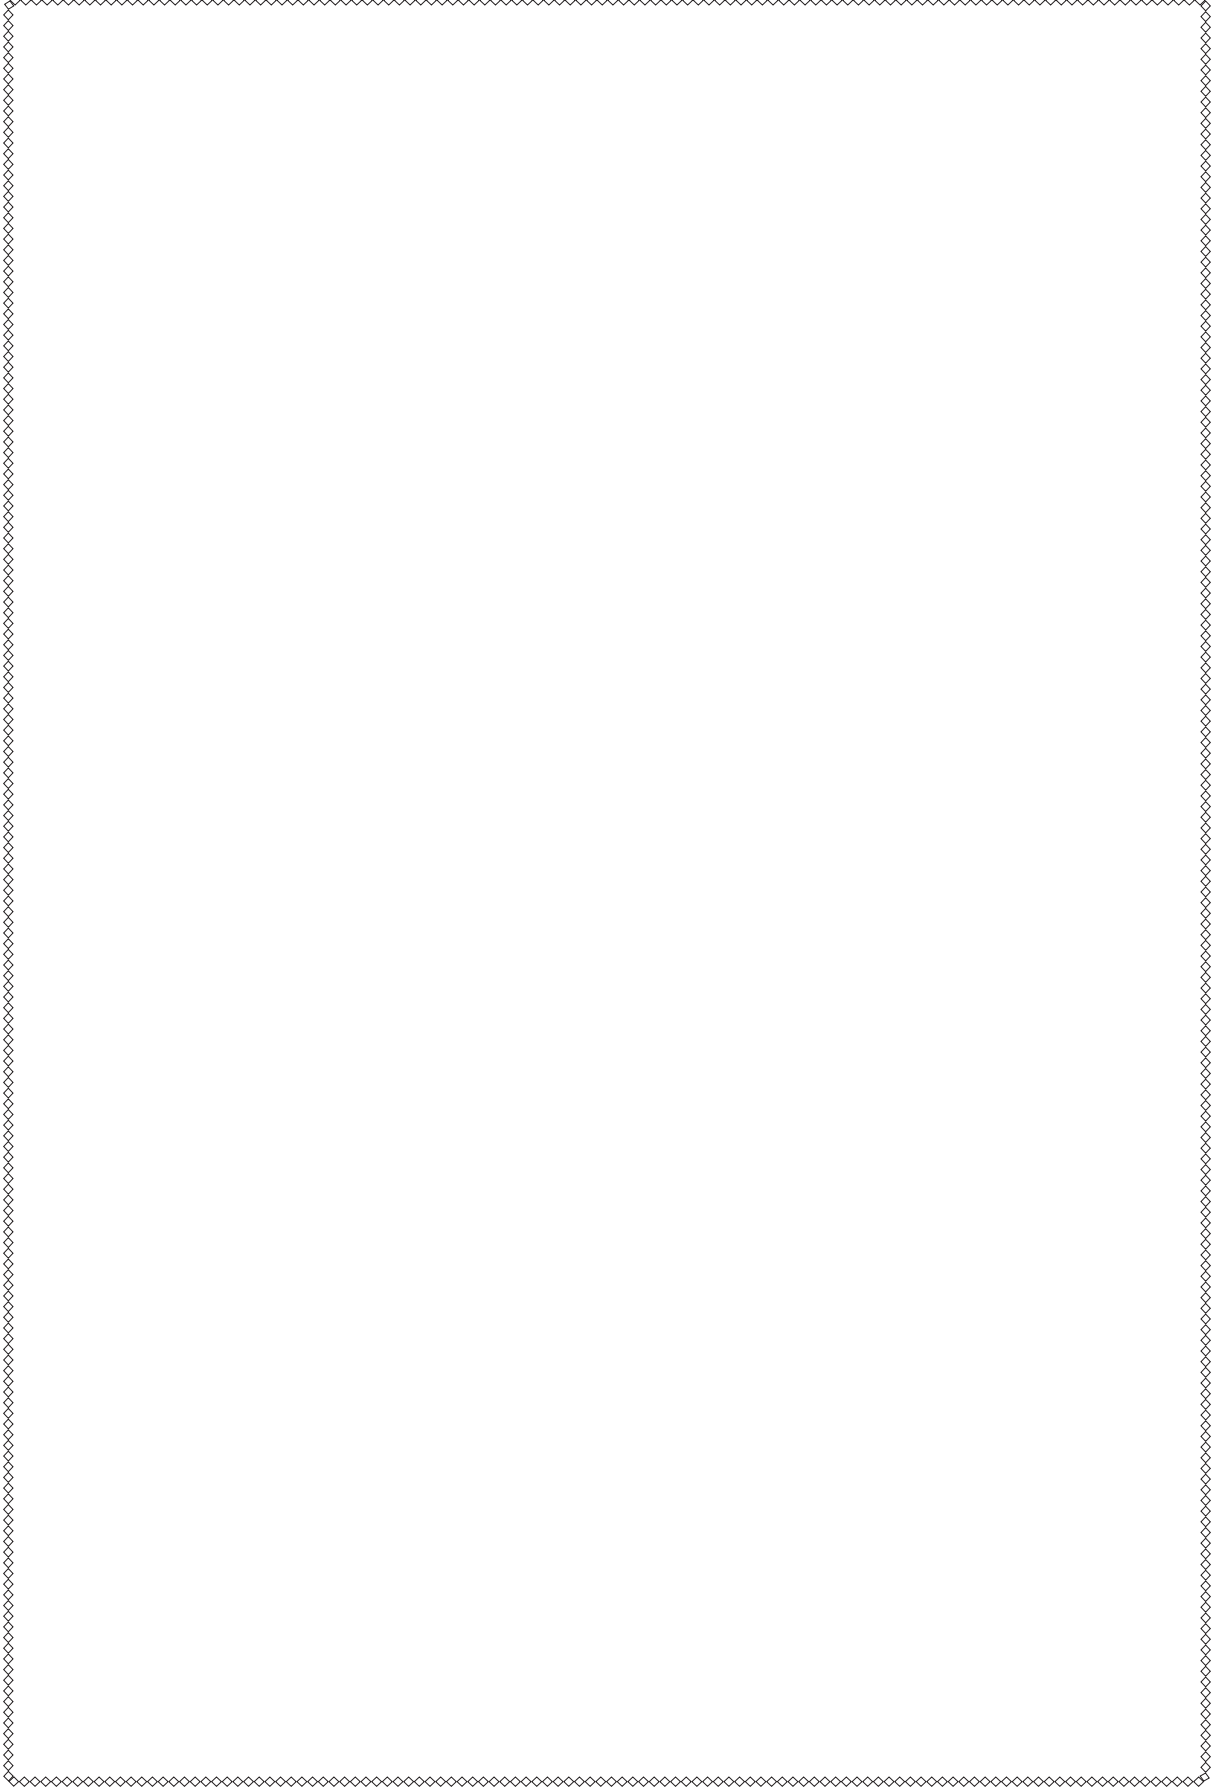

**Step 5:** Sketch the upper side moldings using four straight lines and one tiny curved line along the top part of the body. Finish the trunk area and rear bumper by using straight and curved lines.

Darken the tires, running board, top of the side windows, and part of the trunk area. Draw a straight line below the dark areas in the side windows.

## MY CLASSIC CAR

# ANSWERS

## WORD SCRAMBLE | PAGE 1

Bugatti, Buick, Cadillac, Chevrolet, Ford, Jaguar, Lincoln, Nash, Packard, Plymouth, Rolls Royce, Studebaker, Pontiac, Chrysler, Dodge, Mercury
