## National Wildlife Day

We live in a big, beautiful world filled with amazing wildlife. As we celebrate National Wildlife Day on September 4th, we encourage you to be aware of the many species around us. This national day is also a great time to learn about endangered species, preservation, and conservation efforts. Zoos, aviaries, and marine sanctuaries provide a variety of ways to get involved.

Look closely. The creatures and animals sharing our world live under our feet and in the sky above us. Our rivers, lakes, and oceans are teeming with wildlife of all sizes. It's essential to understand how we impact the habitats that animals need to survive. National Wildlife Day is also celebrated this year on February 22nd, in honor of conservationist Steve Irwin, to commemorate his birthday and the day of his passing.
