## United Nations Day

In existence since 1945, United Nations Day is a way to recognize the United Nations organization and all who serve and participate in this world organization. The United Nations is dedicated to achieving world peace and bettering humanity in everything from world hunger to environmental and health issues. Although it is headquartered in New York City, it is situated on land that was purchased by John D. Rockefeller and is defined as an international territory.

As a rule of the UN, only Arabic, Chinese, English, French, Russian, and Spanish languages can be spoken by the delegates. We invite you to celebrate this special day with the 193 member states that make up the United Nations.

## DID YOU KNOW? A Clove for Courage

Roman soldiers often consumed large amounts of garlic before battle, not only for its perceived health benefits but also as a way to boost courage. They believed the pungent odor and powerful taste of garlic gave them strength and ferocity. This tradition was so widespread that soldiers' rations frequently included garlic, cementing its place as a key part of their diet.
