

# Love Notes Tree

## SUPPLIES:

- Constuction or decorative paper
- Double stick tape
- Scissors

## HOW-TO:

1. Trace each resident's hand and arm on a piece of construction paper, or card stock, or even wall paper.
2. Cut them out.
3. Using colored paper, cut large hearts for leaves. Each person will need several hearts and make them various sizes and colors to keep it interesting.
4. Give each person a stack of blank hearts, and ask them to write a note for several residents. They could write about something they love about them, or just wish them a pleasant day.
5. During walks or in free time, residents can tape them (either with two-sided tape or rolled taped) to the tree's limbs.
