America Recycles Day

On America Recycles Day, the National Recycling Coalition encourages you to recycle and buy recycled products to reduce waste stream material. In America, about 80% of what is thrown away could be recycled. For example, a television can run for 3 hours using the energy saved by recycling just one can. Approximately 1 billion trees' worth of paper is discarded every year in the U.S., while every month, Americans throw away enough glass bottles and jars to fill a giant skyscraper! On average, it costs \$30 per ton to recycle trash, \$50 to send it to a landfill, and \$65 to \$75 to incinerate it. To celebrate this day, recycle as much as you can, donate items instead of discarding them, and encourage your local, state, and federal governments to promote waste reduction programs. The Earth thanks you!

Today in History

In 1964, LPGA golfer Mickey Wright shot the lowest golf score for a woman pro at the Tall City Open. She turned professional in 1954 and became a member of the tour in 1955. Wright won thirteen major championships throughout her career and had a total of 90 professional wins.

DID YOU KNOW?

Pitch-Perfect Parenting

Did you know that singer Minnie Riperton was famous for her five-octave vocal range? She could sing in the whistle register, a rare ability allowing for extremely high, bird-like notes. Her 1975 #1 hit, "Lovin' You," was written as a lullaby for her daughter, actress Maya Rudolph, and famously features these high notes. To avoid waking her sleeping daughter in the studio, she sang a less explicit version that became an unintentional, iconic hit.
