National Harry Day

The spoken form of Henry, the name Harry, is an Old English name often associated with King Henry. Over 370,000 Americans carry the title, which appeared in the United States between 1840 and 1920. There have been many famous Harrys throughout the years, including Harry Houdini, Harry Truman, and Prince Harry. Not only is Harry a popular name in the U.S., but it's also popularized in France, where it's a diminutive for Henry, and in Denmark and Norway, where it's a version of Harald.

Many Harrys are known for their creativity as well as being resilient and courageous. If your name is Harry, National Harry Day is a day dedicated to you! We wish you a great one!

Today in History

In 1732, Benjamin Franklin began publication of "Poor Richard's Almanack" under the pseudonym Richard Saunders. He wrote an annual issue for the next 25 years. Franklin was a polymath, inventor, scientist, writer, and statesman, who's inventions include the lightning rod and bifocals.

DID YOU KNOW?

A Novel Philanthropist

Did you know that behind her literary fame, Margaret Mitchell led a secret life of philanthropy? The *Gone with the Wind* author quietly used her fortune to sponsor a WWII cruiser, the USS Atlanta. More secretly, she anonymously funded the complete medical school education for dozens of African American students at Atlanta's Morehouse College. These generous contributions, hidden from the public for decades, reveal a complex and little-known side to one of America's most famous authors.

TRIVIA

When born, all wolves are _____?

A Deaf and Blind

B Blind and Furless

C Open the fridge

D Blink

TODAY'S FUNNY

"What do you call a herd of sheep tumbling down a hill?

a lambslide!

TODAY'S WISDOM

"Snowflakes are one of nature's most fragile things, but just look what they can do when they stick together."

- Vesta M. Kelly

How To Play:

Each 9x9 box is comprised of 9 smaller 3x3 boxes. Each of these smaller boxes must be filled in with numbers from 1-9. Each row and column of the larger 9x9 box should not have any numbers repeated.

	3	1	4	8	7	2	5	9
		9	1	3			8	
7	8	5		2	6	4	1	3
3	6	7		1	2		9	4
	1		6	9		3	7	8
8	9	4	5	7	3	1	6	
	7		2	4	1		3	
1		8	3		9		4	7
4	5	3	7	6	8	9	2	1

		8	3	1			6	
						7	1	
6		1	5	9	4	2	3	
		3		6				
1	6	7	8	4	5			2
4	8	9				5	7	
		2	6		8	9	4	
	4	6			8		3	
8			4	3	1		6	

Helpful Tip:

If you get stuck, try asking yourself “Where can I place number X in this row or column?” Scan to see if the number is already in that row, column, or box.

CRYPTOGRAM

Each number stands for a letter. The correlating number for 3 of the letters have been provided as a starting point. Find the numbers in the puzzle and write the assigned letter. Single letters and word length are all hints. Be sure to keep track of what numbers are used for each letter to decode the message!
