Benjamin Franklin Day

Benjamin Franklin Day is celebrated on January 17 each year to honor one of the greatest Founding Fathers of the United States on the anniversary of his birth. Franklin was a poet, politician, scientist, writer, diplomat, statesman, political philosopher, printer, publisher, and inventor.

He is best known for co-drafting the Declaration of Independence and is considered one of the most significant figures in American history.

Remarkably, Franklin is the only Founding Father to have signed all four key documents that laid the foundation of the United States. And, of course, his face appears on the \$100 bill, often referred to as a “Benjamin.” Franklin’s inventions include the lightning rod, bifocals, and the Franklin stove. He also coined numerous names and phrases and established the first subscription library in the U.S. Not bad for a man who dropped out of school!

Today in History

In 1934, NL pitcher Carl Hubbell received an \$18,000 contract from the New York Giants. That same year, he struck out 5 future Hall of Famers in a row, including Babe Ruth and Lou Gehrig, in the All-Star Game. Hubbell won the National League MVP award twice, in 1933 and 1936.
