## National Compliment Day

National Compliment Day on January 24th offers a wonderful way to brighten someone's day or to give credit for a job well done! Give an extra compliment annually on January 24th and any time one is deserved. A compliment not only improves the receiver's mood but also says something about the giver. It tells them you noticed. To give a great compliment, first, be sincere. People have a way of knowing when we are fake. If you don't mean it, it's worse than getting a thoughtless birthday gift. Strive to give a compliment about what makes a person stand out above the rest. Take the time to reflect on what you admire about the person. Whether we recognize someone's achievement or their classic style, a compliment can go a long way. And, it does wonders for the complementor as well as the complimented!
