Global Community Engagement Day

Every year on January 28th, Global Community Engagement Day seeks to encourage organizations, individuals, and businesses to better engage with their community.

Community engagement helps to build and strengthen relationships.

This includes relationships with residents, faith-based groups, cultural groups, voluntary groups, and even virtual groups. One more great reason for businesses and organizations to become engaged in their communities is that the result is often a win-win for everyone.

When a particular project is realized, it is a good feeling knowing that the community will benefit from it.

Today is a good day to get involved, learn how you can become more involved in your community, and seek out others who share this interest.

Today in History

In 1985, “We Are the World” was recorded for charity by the supergroup USA for Africa. The song was written by Michael Jackson and Lionel Richie and produced by Quincy Jones and Michael Omartian. It was certified multi-platinum and is the eighth best-selling single of all time.

Originating in Germany during the late 1700s, these charming figurines have evolved from ceramic to more durable materials. Their popularity peaked in the 1960s, thanks to promotional giveaways by Major League Baseball. Today, if you can imagine a subject, there's likely a bobblehead available, highlighting their enduring appeal in collecting and memorabilia.
