National Walk Around Things Day

April 4th is National Walk Around Things Day! The exact meaning of this day is open to interpretation, but one possible way to celebrate it is to be careful while walking and avoid hazards such as puddles, broken glass, or tripping over obstacles. Another way to interpret this day is to use it as an opportunity to take a break from dealing with difficult situations or people. Take a step back, walk around the problem, and come back to it later.

You could celebrate this day by taking a long walk outside or on a treadmill, or have some fun with it by walking around everything you see. No matter how you choose to celebrate, let this day help you see and experience the world differently.
