National Upcycling Day

We've all heard of recycling... but what is upcycling? Upcycling is using your creativity to repurpose old objects or furniture to make something new and useful! Maybe you turn an old bowl or mug into a flower pot, repurpose jeans or other fabric into a handbag, or decorate a tin can to use as a pencil holder!

Just because an item has reached the end of its intended use doesn't mean it is useless! Put on your thinking cap and use your creative thinking skills to give that item a second act! You can turn it into a new useful item, or lean into your artsy side and turn that would-be trash into a masterpiece!

Did you know? Artists in the Netherlands upcycled a Boeing 747 into a conference room! That's some serious upcycling.

Today in History

In 1958, Nina Simone released "Little Girl Blue," her debut jazz album. Her famous recordings include "I Loves You, Porgy" and "My Baby Just Cares for Me." In addition to being a jazz and soul singer, she was a prominent figure in the Civil Rights movement and left the U.S. in 1973.
